This involves clearing the shipment through customs and arranging the transport of the material from your port of entry to the final destination(s). Once we are ready to provide you with a proposed manifest (container contents), it is your responsibility to investigate the requirements for duty free status and to communicate to us so that we can make the shipping arrangements. The minimum financial requirement is whatever clearing costs are required from the port of entry and then the inland portion of the transportation cost.

I read and understand.
